

PRODUCT CARD

# L.B. Foster Rail

We Innovate to Solve Global Infrastructure Challenges

## Rail Distribution

- > New stick rail up to 320' and continuous welded rail up to 1600' strings
- > New tie plates, spikes, anchors, joint bars, derails, bumping posts, gauge rods, and other track materials (OTM)
- > New 12AS through 175# crane rail and accessories

## Trackwork

- > Complete 115# and 136# turnouts, including panelization options
- > 5.5" and 6" base transition rails
- > Frogs, switch points, switch stands, platework, and other turnout components

## Allegheny Rail Products (ARP)

- > Bonded insulated joint plugs and kits
- > Poly-encapsulated joint bar kits (Toughcoats)
- > Insulated tie plates
- > Insulated joint field repair kits

## Transit Products

- > Direct fixation fastener assemblies, including high resilient and special trackwork fasteners
- > Third rail, coverboard, insulators, and other appurtenances
- > Low vibration resilient ties, including LVT, monoblock, and two-block ties
- > Ballast mats, under tie pads, and floating slab track pads
- > Anti-trespass panels and crossing panels
- > Rail boot and leveling beams

## Friction Management

- > Gauge-face and wheel flange lubrication
  - > PROTECTOR trackside systems and extensive grease portfolio, including SYNCURVE
  - > On-board locomotive wheel flange and LCF solid sticks
- > Top-of-rail and wheel tread friction management
  - > KELTRACK portfolio and INFINITRACK friction modifiers applied by the PROTECTOR system
  - > On-board HPF solid sticks and KELTRACK on-board (KOB) spray systems
- > Traction enhancement systems and ALLEVIATE
- > Remote monitoring, field applications, service, and bulk filling
- > Track mats

## Total Track Monitoring

- > WILD IV
- > Rockfall Monitoring
- > Flood Monitoring
